ProGold Masking Tape Precision Sensitive is a premium masking solution developed for precise paint applications on delicate interior surfaces.

- Made from high-quality FSC® washi paper, it combines excellent conformability with clean, sharp paint lines for a professional finish.
- Its low-tack acrylic adhesive ensures secure adhesion on sensitive indoor substrates such as wallpaper, freshly painted walls, decorative finishes and varnished surfaces.
- Allowing residue-free removal for up to 30 days.
- Water-resistant and temperature-resistant up to 100°C for 30 minutes, it helps professional painters delivering flawless results.

Ideal for sensitive surfaces as fresh paints and wallpapers

Characteristics

Eco-friendly release agent
Acrylic Glue
Washi paper

Colour

Purple

Sizes

18mm / 24mm / 36 mm / 48mm
X 50m

Usage

It is suitable for low to medium adhesion requirements with good adhesion to most smooth surfaces, curves or corners. (should not be used on nitro solvents) The initial adhesive surface should be clean and dry, free of oil and other contaminants. Please use it after passing the trial.

Storage

The product should be stored in a cool and dry environment, avoiding sunlight, refrigeration and high temperature. Shelf life is 12 months under normal temperature and humidity conditions. Working temperature -5°C-30°C.
